

Early Assessment Program

February 2010

ATTENTION ALL HIGH SCHOOL JUNIORS!!

THE EAP IS COMING TO YOUR HIGH SCHOOL!

Don't forget the **Early Assessment Program (EAP)** consists of a

2-part test:

- ❖ 15 additional mathematics questions
- ❖ 15 additional English questions and an essay.

The EAP questions are part of the STAR Test (California Standardized Test) administered in MARCH and MAY.

I know you may be thinking

"NOT ANOTHER TEST!"

Remember.....

The EAP is free and can save you time and money when you go to college

Here is a sample essay question:

"Because of cell phones, hiking in wilderness areas may be safer than before, but it is also noisier than ever. Although people might bring cell phones with them to use in case of an emergency, emergencies are rare. More often, people receive incoming business and even social calls. Technology seems to be following us everywhere: into the wilderness, and then back into civilization. Anywhere at any time, everyone else present can be disturbed by one person's call. Because more people in these circumstances are bothered by cell phones than are helped, these gadgets should not be permitted in certain public places or designated natural areas."

—Lois Quaide

Explain Quaide's argument and discuss the extent to which you agree or disagree with her analysis. Support your position, providing reasons and examples from your own experience, observations, or reading.

This is an actual test question that was used in past tests.

[Try your best to answer the question.](#)

Practice and you will do great on the EAP!
